Glass Racks

Glass Racks

Features

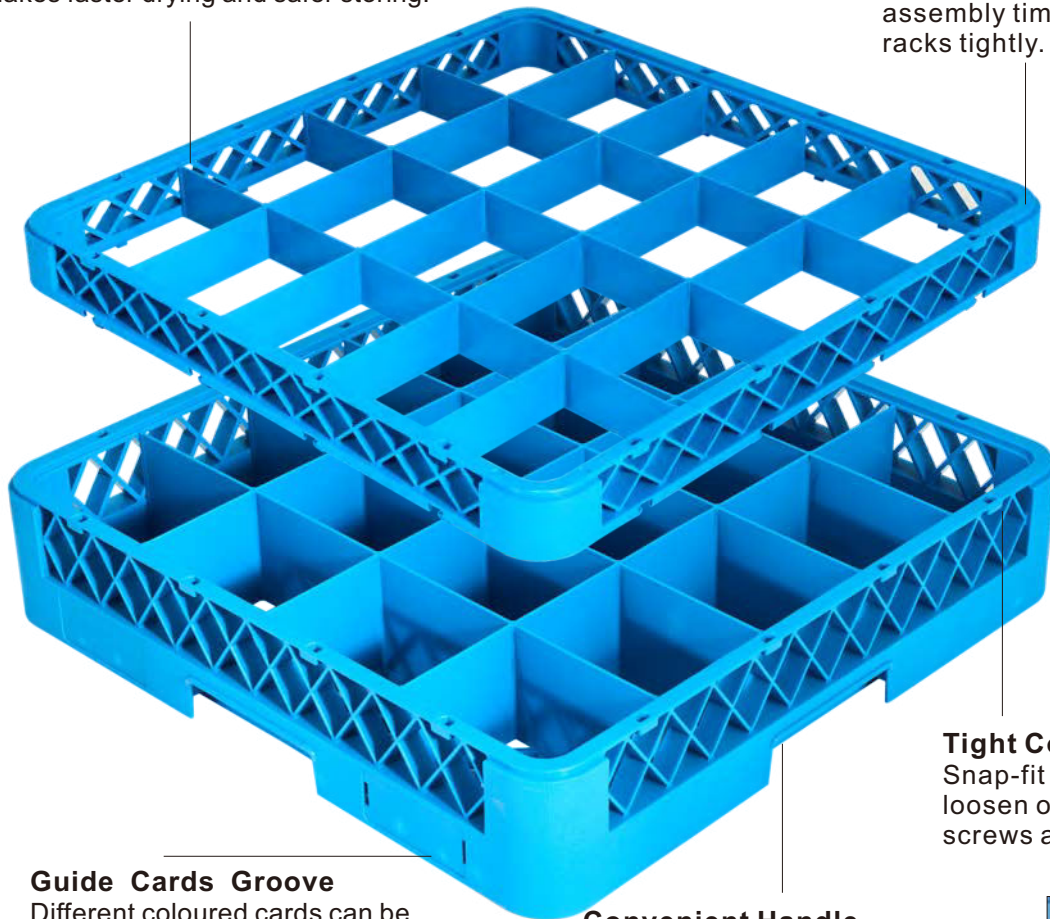

No need for rewashing, efficiently saving time and cost.
keep the glassware cleaner.

Open Profile

Allows top-to-bottom and side-to-side washing, making the glassware cleaner.
Allows more air to circulate through the racks and makes faster drying and safer storing.

Stackability

Snap-fit construction shortens assembly time, and stacks all racks tightly.

Guide Cards Groove

Different coloured cards can be inserted to facilitate identifying storing items and improve work efficiency.

Tight Connection

Snap-fit extenders will not loosen or rust over time like screws and will not come apart.

Convenient Handle

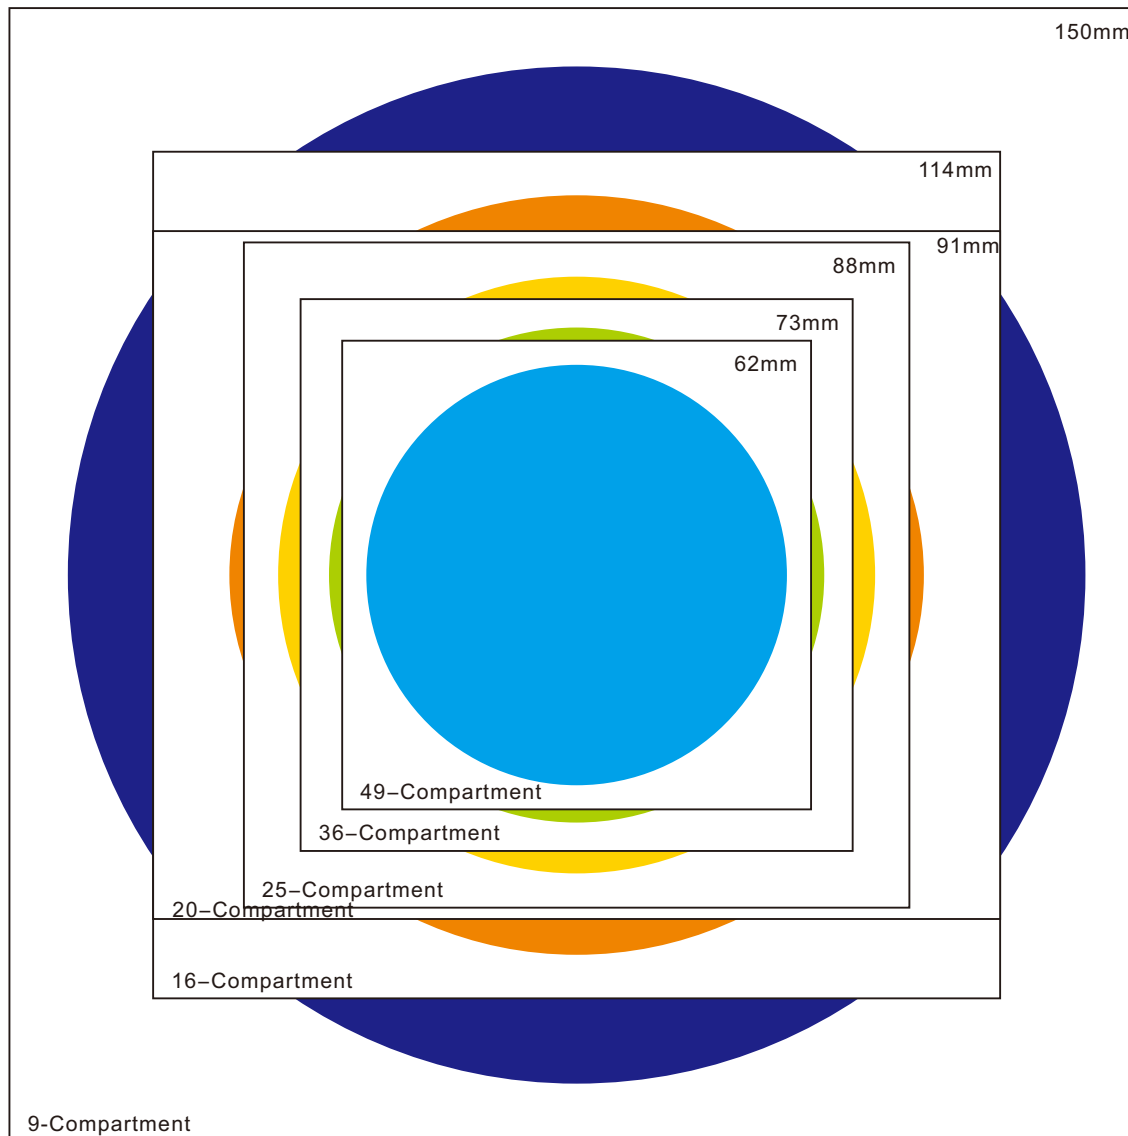

The handles on all four sides of the racks are convenient for safe delivery. Textured surface and convenient handles can avoid scratches when carried.

Glass Racks

Glass Rack Sizing Guide Instruction

1. Place glass upside down on top of the middle circle of the sizing guide, center of the glass should be over the center of the guide.
2. Look down on the base of the glass.
3. Note the smallest square on the guide where the largest outside diameter of the glass lines up completely within the square without touching it. That is the number of compartments our rack needs to have.
4. Place lip of glass against the base line of the vertical guide on the right-hand side of the page with the base/foot of the glass pointing straight up towards the top of the page.
5. While holding the glass against the vertical guide, note where the base/foot of the glass lines up on the vertical guide. The next line above the base/foot on the guide indicates the number of extenders your rack will require.
6. Glasses with a maximum height exceeding 270mm will need more than five extenders. Each extender adds approximately 40mm of additional height to the inside compartment of the rack.

Storage Products

Efficient and convenient flip hinge lid that keeps food safe

Easy-to-read capacity indicators

Features good fresh keeping.

PC GN Pan

PC GN Pan

- Features good fresh keeping.
- Durable construction makes no deforming, no hollowing and no cracking. Smooth interior makes clean up easy. Withstands temperatures from -40°C to 99°C (-40°F-210°F)
- Colour: Clear, Black.

Drain Shelves

- Available in sizes of 1/1, 1/2, 1/3, 1/4, 1/6.
- It supports contents and facilitates drainage.
- Colour: Clear, Black.

Features

Cover with Handle
Deep molded handle provides secure grip.

Clear and Smooth Surface
Allows for a viewing of contents; Smooth interior makes clean up easy.

Drain Shelves
Available in sizes of 1/1, 1/2, 1/3, 1/4, 1/6, supports contents and facilitates drainage.

Capacity Marks
Sides are marked both in liters and quarts capacities for easy inventory management.

PP GN Pan

PP GN Pan

- Hardly absorbs dust or causes fouling, keeping food clean and fresh.
- Made of environmental material polypropylene, inodorous, atoxic and easy clean-up.
- An economical choice for food storage.
- Withstands temperatures from -15°C to 80°C (5°F-176°F).
- Colour: Clear

PC GN Tray

- GN trays are made of durable PC. Which ensures no deformation or break. Non-stick smooth exterior cleans up easily and quickly.
- Withstands temperatures form -40°C to 99°C
- Colour: Black.
- Material: PC

Square Storage Container

Contents and Date Indicators on Lid

Spare space of the lid can be marked with contents and date indicators, convenient to keep the quality and freshness of food.

Textured Lid

Made of polyethylene; Non-slip textured surface is resistant to scratches and helps more stable stacking.

Wide and Easy Handles

Wide molded-in and textured finish handles in larger sizes ease carrying. Drain holes in handles allow for quicker drying. Wide cove handles save effort when transported and do not waste space.

Stackable lugs

Corner stackable lugs add strength rigidity and prevent jamming when stacked.

Date indicator

Date indicators on all four sides for easy recognition.

Textured Finish

All corners, edges, handles and the bottom are designed with textured finish. It can reduce scratches, increase service time and provide safe use.

PC Square Storage Container

Transparent polycarbonate allows for easy identification of products. Polycarbonate is extremely durable and stackable.

Square shape allows for practical storage in the freezers and coolers.

Withstands temperatures from -40°C to 99°C (-40°F-210°F)

Colour: Clear.

PP Square Storage Container

Made of polypropylene, economical and durable,

It's a good choice for food storage.

Dishwasher safe.

Withstands temperatures from -15°C to 80°C (5°F-176°F).

Colour: Translucent, White

Plastic Barware

Dual-way First In First Out Squeeze Bottle

- Made of environmental, non-toxic PE with blow molding process.
- Designed with double wide mouth for easy cleaning and fast filling.
- Operating concept, First In First Out
- Improving the utilization of sauce at least by 15%.
- Ideal for table or kitchen service
- The temperature range is from -40°C to 80°C (47.2°F-176°F)

1L New Free Puro

- Made of high-density polyethylene and polypropylene.
- Juice flows out from a hole at the top.
- The small hole can control the flowing speed of juice.
- The top can be easily held.
- The product is easy to clean.
- A registered design with practicalities in mind as opposed to just pouring or storing.

Aluminum Composite Shelving

Aluminum Composite Shelving System

The bearing components of the shelving, including posts, post connectors, traverses. All are made of high-strength aluminum alloy and available in various sizes to ensure a high space utilization under different situations.

Multi environments use
From -38°C to 88°C

Stationary Units

Mobile Unit

Length: 905mm, 1085mm, 1265mm, 1355mm, 1535mm, 1805mm

Width: 360mm, 450mm, 540mm, 630mm

Height: 1550mm, 1700mm, 2000mm, 2450mm

Aluminum Composite Shelving

Easy to Assemble & Adjust

Different heights of mounted hanging holes are preprocessed on the post and distributed evenly with 150mm increments, so the shelf can be adjusted without disassembling the entire unit. Corner connectors are applied to build a right-angled or U-shaped frame. The bottom of the post is equipped with height-adjustable bolt and the unique designed self-locking nut, so a stable shelving is ensured even on the uneven floor.

Weight Bearing Capacity

Each shelf can bear 170 to 250 KGS.
There is no loss of weight bearing capacity after an add-on unit was built up along a straight line.
Due to the weight bearing capacity of castors, the maximum weight bearing capacity of each moving shelf is 110 kg.

Healthy and safety storage area

The shelf plates are made of high density anti-corrosion polypropylene, non-toxic and tasteless, ensuring a sanitary area for food storage.
Rust free and safe to -38°C, making the shelving ideal for restaurant, bakeries, hospitals, storage rooms, freezers and so on.
Detachable structure makes components removed or cleaned easily and quickly.
The design of product is compliance with NSF certification standards.(including castors)

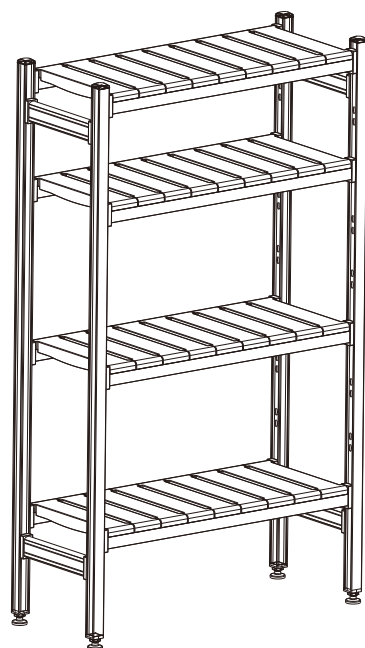

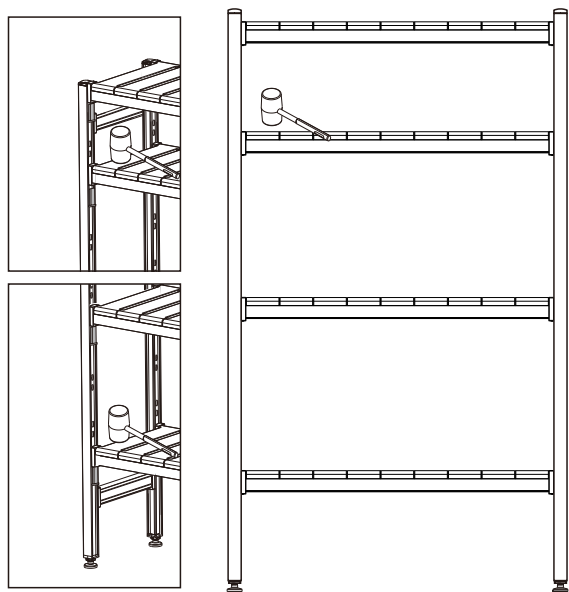

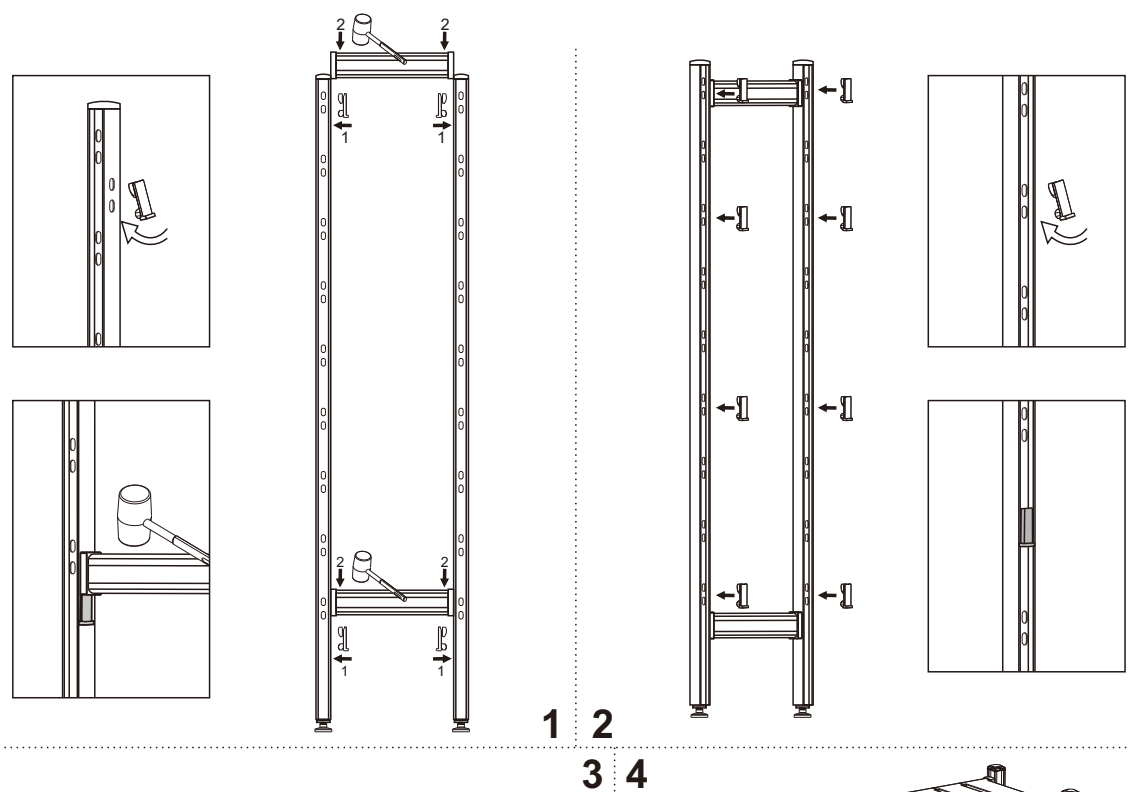

Absolutely solid durable and stable

The weight bearing components of posts, traverses, post connectors, with the feature of high strength, corrosion resistance, durable, are made of aluminum alloy.
All aluminum components are extruded, then the oxidation technology is applied for the shelving surface.(15um thickness of the oxide layer) Thus the purpose of anti-oxidation and anti-corrosion achieved.
Safe to -38°C(-36.4°F), ideal for freezers or wet or humid environment.

Winshelvings

Multi environments use
From -38°C to 88°C

Stationary Units

Mobile Units

High-Density Units

Winshelvings

Easy to adjust and install

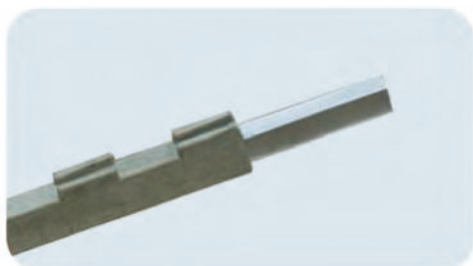

It's easy to adjust and install.
With different sizes (3 heights, 4 widths, 6 lengths), space utilization is highly increased.
The nets can be adjusted up or down by 100 millimeters with disassembly.
Shelves can be built to U-shape units with corner connectors.

Absolutely firm, durable and stable

Made of a steel core and polypropylene.
Inner steel provides high intensity and durability.
Exterior PP is anti-corrosion and break-resistant
Post connectors provide exceptional stabilization.

Never rusty

Can be used anywhere, no matter moist or dry
weldless, never rusty.
Resists corrosion by brine or marine air.
Suitable for coolers and freezers, available under -38°C.

Winshelvings

Basic Unit

The components of shelf can be formed into various specifications of basic units.

Vented Basic Unit

Solid Basic Unit

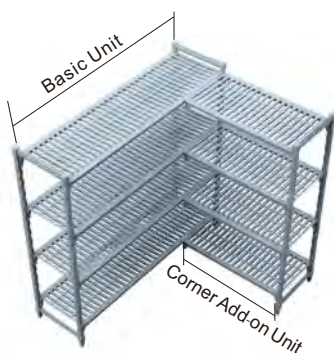

Add-on Unit

When added to a basic unit, the traverses on the first and second unit share the middle post. As a result, only two additional posts, instead of four posts or any add-on clips, are needed.

Corner Unit and U shape Unit

Corner connectors can build corner units and U-shape units. Traverses snap onto corner connectors just like they snap onto the dovetails of the posts.

Mobile Unit

Inserting the specialized bolts into the casters to change the storage shelves into the move aluminum shelving system. Mobile units are unsuitable to be used as transporting cart.

Heavy-duty Rack

To store frozen, cold and dry items 22.5cm safely off the floor. Rust free, corrosion proof and non-blending, the maximum weight load is 350kg. Different sizes of 6 heights, 4 widths of corner connectors and dunnage stand are available. Above 1220mm size must be assembled with dunnage stands and corner connectors to make sure its loading capacity.

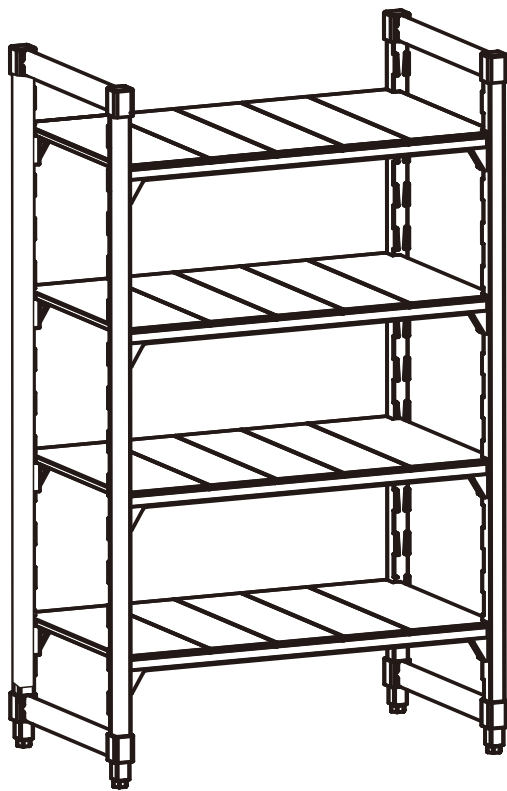

Solid Dunnage Rack

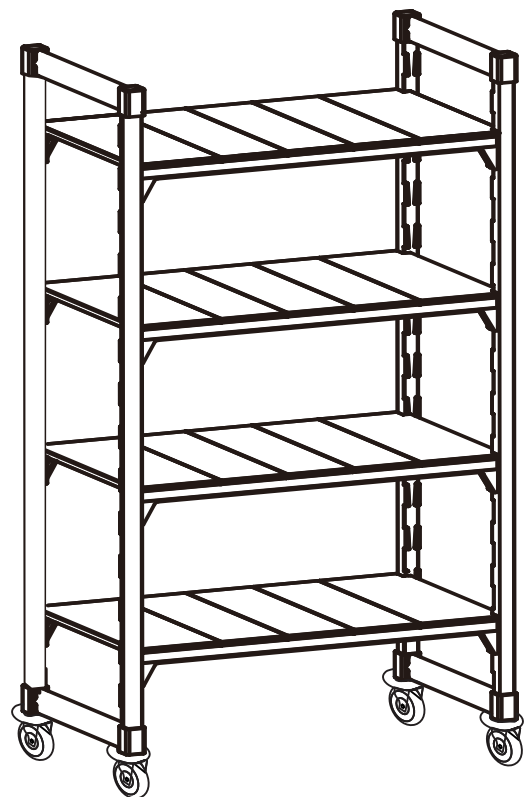

Vented Dunnage Rack

Winshelvings Size Diagram

Stationary Units

Mobile Unit

Stationary Units

Length	910mm(36")	1060mm(42")	1220mm(48")	1370mm(54")
	1525mm(60")	1825mm(72")		
Width	355mm(14")	455mm(18")	530mm(21")	610mm(24")
Height	1600mm(64")	1800mm(72")	2000mm(80")	

Mobile Unit

Length	910mm(36")	1060mm(42")	1220mm(48")
Width	455mm(18")	530mm(21")	610mm(24")
Height	1690mm	1890mm	2090mm

Weight Bearing Capacity

Weight must be evenly distributed throughout the frame.

		Length 910-1220 mm	Length 1370-1825mm
Single Unit	Weight Bearing capacity per for shelves	1400 kg	1000 kg
	Weight Bearing capacity per unit	350	250
Corner Unit	Weight Bearing capacity per for shelves	600	—
	Weight Bearing capacity per unit	150	—
Mobile Unit	Weight Bearing capacity per for shelves	340	—
Dunnage Stand	Single Unit	450	—

Note: As the casters have load-bearing capacity, the maximum load-bearing capacity of the mobile frame is 340 kg.

Winshelvings Parts

Casters

It is suitable for all storage areas, especially for refrigerated rooms and wet areas. It consists of highly durable, non corroded plastic and 127mm non marking thermoplastic rubber universal wheel.

Art.No.	PSL	PS
Direction	With Brake	Without Brake
Size	127mm / 5"	127mm / 5"

Corner Connector Set

Corner connectors can be used to build corner units or U-shaped units. A set of corner connectors is needed for each shelf. When corner connectors are used, weight bearing capacity will be decreased to 180kg per shelf. Recommended for travelers equal to or shorter than 1220mm.

Tool for assembling removing corner connector .

PCC
Including tow about

Shelf Plates

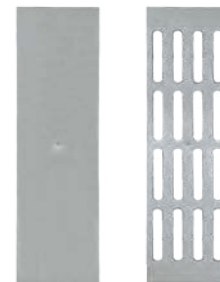

The material of shelf plates is polypropylene. The design of shelf plates is solid or vented.

Vented Shelf Kits

Solid Shelf Kits

Post Connectors

Post connectors hold two posts together and define the width of the unit. Be made of polypropylene, provide exceptional cross stabilization.

Top

Bottom

Dunnage Stand

Recommended for 1370mm or longer. Recommended for weight bearing capacity to 450kg on the bottom shelf.

Winshelvings Parts

Fence system

Used to prevent the stored items from falling off shelving.
Ideal for mobile shelving units.

DO NOT USE A METAL HAMMER FOR ASSEMBLY

High Density Mobile Shelving Storage System

Maximum storage capacity can be achieved by forming a storage channel in all available space. The mobile shelving storage system is composed of the basic units on the raised track, with high density movable shelves in the middle. Tracks are easy to be installed without drilling or bonding.

High Density Mobile Shelving Storage System

Caster

High Density Mobile Unit includes 4 High Density Casters with 4 High Density Donut Bumpers.
Weight bearing capacity of High Density Mobile Unit is 340kg.
All necessary hardware is included in the track kit.

Composite Shelving

JIWINS Composite Shelving Can be used in multi environment from -38°C to 88°C

Made of innovative high-strength composite materials so each layer can bear up to 200kg.

It is comfortable to use because of its smooth, easy-to-clean surface and its post notch embedded.

The shelf plate is added with the antibacterial agent of Microban brand in America, which can effectively inhibit the breeding of bacteria and ensure the safety and hygiene of stored products.

Buckle design makes installation and adjustment easier, and with good rust resistance. Products can withstand the influence by water, chemicals and other liquids. It can be used in the place under low temperature of minus 38 degrees and wet kitchen.

Epoxy Wire Shelving

Epoxy Wire Shelving

- Providing the ideal storage solution: epoxy mesh multiple sizes available.
- Open wire construction allows a free circulation of air.
- Open design allows greater visibility of stored items which is convenient to check.
- Different shapes are available based on different circumstance.
- Adjustable to various heights.
- Each shelf supports up to 250kgs, without casters.
- Color: blue, green, black, silver.
- * This colour requires a MOQ.

Drink Server

Drink Server

- Keep beverage hot or cold and fresh for hours.
- Suitable for the restaurant's foreground and background.
- Seamless double-wall PE construction and foamed-in-place polyurethane insulation ensures years of reliable service and prevents liquids from seeping walls.
- Molded-in mounting plates prevent latches from pulling out.
- Drip-proof recessed spigot allows for easy accessing and can be easily adjusted without tools.
- Wide service opening accommodates larger cup or coffee pots when units are stacked on a riser.
- Each unit includes a set of beverage label.
- Interlocking construction allows for stable stacking and space saving.

Material: PE,PU

Colour: Brown

Insulation Effect

Vent caps

Balanced pressure makes the container easily open.

Recessed faucet

Accommodates for larger cups, Two positions, one for continuous pouring. And the other for individual dispensing.

1 inch ultra latch

With durable plastic ultra latch. It won't rust. Suitable for JW-INC7L, JW-INC9.4L, JW-INC18L.

9.5 inch ultra latch

Wide nylon latches are rust free and easy to open and close by one hand Suitable for JW-INC44.5L.
